

2 July - RAD Items of Possible Interest

11 employees signed up for retirement on Friday, the last working day by which to qualify for the 6.1% cost-of-living benefit.

With the 29 June rush over, a total of staff and contract employees retired from the Agency during FY 1973. In addition, there are pending applications for disability retirement which when approved will swell the total even more. This is an all-time high.
